Customer Satisfaction vs Service Score

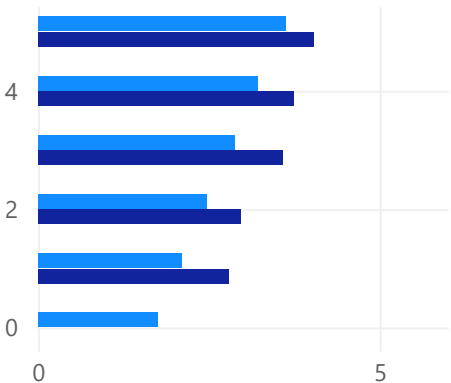

Key Finding

Passengers rating services as "Excellent" are more than 2x as likely to be satisfied compared with passengers rating services as "Average" or below.

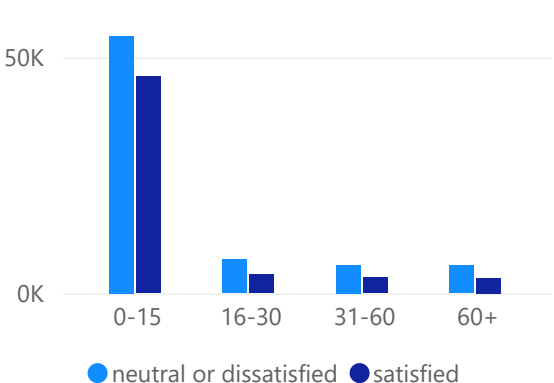

Recommendation:

Prioritize Online Boarding, Seat Comfort, and WiFi improvements to maximize satisfaction gains.

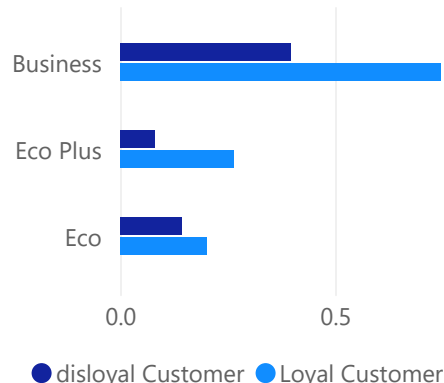

Service Quality Ranking

Satisfaction by Delay Bucket

Satisfaction Rate

Insight Panel

• Online Boarding offers the highest return on investment.

• Seat Comfort improvements can significantly boost premium passenger satisfaction.

• Delays remain a major operational challenge.

• WiFi improvements can increase satisfaction among younger travelers.
